Appraisal 012717.pdf

Hello all-

A couple of thoughts, questions. I'm also providing the appraisal the City conducted; I don't believe I sent this yet.

- We have the hard copy of the report from the START program manager that you left us at the meeting. Is it possible to provide an electronic copy? I can scan this one but was hoping to avoid standing at our copier...☺
- Is there an electronic copy of the information related to the building removal, cost estimates that you provided?

We met with some stakeholders this week, and have continued development review processes for the Gray's Landing and Gray's Station development projects with Hubbell Realty Company and Sherman and Associates. There is a slight possibility that there may be another "dance partner" join us as an interested stakeholder for the Dico site. As if we didn't have enough folks!

It's another potential public use, which has me wanting to ask about the cost estimate you covered with us for the building removal/hot spot remediation. Is there an ability for EPA/owner to request an alternate bid to the cost estimate you've received? The appraisal and the removal costs are so upside down, it offers very little hope of success.

Thanks for any advisement!

Thanks for the follow up Rita. I don't think we will have anything new to share until the Feasibility Study reports are completed and we have a Proposed Plan ready to publish (later this spring).

I will be out of the office between now and March 20. Let's connect the week of March 20 by phone. Thanks.

Subject: RE: Follow Up

All,

Many thanks for the trip to Des Moines and the discussion. I am following up and attaching the electronic copy of the appraisal prepared for the City.

I did reach out to the owner and plan to again next week. More to come on this front.

Were there additional materials that we committed to send to you or that we will be receiving?  
Sorry for not tracking fully!

We will grab something on the way. Might be a little late.

Any suggestions on parking?
